Lindsay Brown

Adjunct Professor of Operations Management

About Thunderbird:

Thunderbird is the world's No. 1-ranked school of international business with more than 65 years of experience in developing leaders with the global mindset, business skills and social responsibility necessary to create real, sustainable value for their organizations, communities and the world. Dedicated to preparing students to be global leaders and committed global citizens, Thunderbird was the first graduate business school to adopt an official Professional Oath of Honor. Thunderbird's global network of alumni numbers 40,000 graduates in 147 nations worldwide. The school is sought out by graduate students, working professionals and companies seeking to gain the skills necessary for success in today's global economy.

Areas of Expertise:

Inventory, operations and supply chain management, product planning and management, and staff training

Courses:

Operations Management

Lindsay Brown teaches operations management at Thunderbird School of Global Management. She received her B.A. in Business Management and MBA in Supply Chain Management at Arizona State University in Tempe, Arizona. She also received Certification in Production and Inventory Management (CPIM) from the Association for Operations Management (APICS) in 2008. She is a certified APICS instructor and a member of the association's Los Angeles chapter.

Brown has worked at Intel Corporation for more than 12 years with jobs ranging from product planner and project manager to senior material planner. She also is currently running the training program for her organization of more than 700 employees. This position has allowed her to train people from countries all over the world, including Taiwan, Malaysia, Costa Rica, China, and Japan.

Brown is an Arizona native and has worked in Santa Clara, California, when she started with Intel. She has been back in Arizona for more than eight years and still has a hard time dealing with the hot summers.
