

## **Intel International Supply Chain Management Global Business Scholarship**

**History:** Intel seeks to support science and engineering education with a global supply chain/business focus. The ultimate goal is to feed the pipeline and quality candidates. This scholarship was established at Thunderbird in 2003.

### **Provisions:**

- Scholarship is renewable for up to two years of funding with confirmation of scholars maintaining a minimum 3.0 cumulative GPA.
- Thunderbird Donor Relations Assistant Director provides trimester grades and cumulative GPA for scholarship renewals to Intel AZ Scholarship Program Manager. Scholarship renewal is based on continued scholarship eligibility.
- A scholar not maintaining the grade requirement of a minimum 3.0 cumulative GPA for a trimester will be in probation status and the scholarship will be subject to cancellation if the scholar's grades do not meet the requirement the following trimester.
- Possibility of a summer internship at Intel Corporation (subsequent internship opportunities based on performance).
- Scholar assigned an Intel Mentor for academic and career guidance.

### **Criteria:**

- Demonstrated interest and aptitude for and potential future success in International Supply Chain Management/Global Business. Preference will be given towards supply chain management.
- Demonstrated proficiency in technical (engineering/computer science) on the undergraduate level. Student must have a technical undergraduate degree.
- Award made through the designated university and not transferable.
- Overall academic excellence.
- Academic excellence related to major field that includes engineering and computer science (GPA and level of courses). Students (or Financial Aid) must provide transcripts at the time of application for classes prior to and at Thunderbird. A minimum GPA of 3.0 is required but 3.5 and more is preferred.
- Student has not made a commitment/decision with another company at the time of the scholarship application. This is based on the student's word.

- Student must have a permanent unrestricted right to work in the U.S.
- Verbal and written communication skills.
- Interpersonal skills (e.g. leadership, team, group)
- Students must be at least in their second trimester.

**Process:**

- (Owners: Thunderbird Executive Scholarship Committee/Arizona Scholarship program Manager. /Intel).
- Enrolled students (second trimester on) will submit a cover letter, current resume, transcripts and essay to the Scholarship Committee.
- The one-page essay will explain the candidate's global business acumen and engineering/computer science background as appropriate. Candidates will also include regional expertise and future plans.
- The Scholarship Committee reviews the applications and selects the top candidates to be forwarded to the Intel Arizona Scholarship Program Manager/Intel Reviewing Committee. Intel will rank the candidates within ten business days of receiving the applications and forward to Thunderbird.
- Intel will set up either phone or face-to-face interviews with the top 2-4 candidates.
- The Arizona Scholarship Program Manager/Intel will forward their ranking to the Scholarship Committee where the final approval is made. Thunderbird will notify the recipients and Intel of the recipients.
- Intel provides scholarship funds to Thunderbird School of Global Management.
- Intel Arizona Scholarship Program Manager will send a congratulations email to new scholarship recipients, identifying the Intel Mentor- cc: Thunderbird Associate Vice President of Development, the Intel Educational Program Manager and Thunderbird Senior Sponsor.
- Intel Mentor contacts scholar with introductory phone call or email message.
